

LOCATIONS

The best locations for a food vending cart have a lot of pedestrian traffic. They should be located near a large population of workers, visitors or shoppers. The location should enable your cart to be highly visible to this flow of foot traffic. It should also be easy to access, for you to load your daily supplies or position the cart. It is usually better if there is no other competing food businesses nearby.

Examples of permanent locations for hot dog or pretzel carts;

- Parking lots of large retail, hardware stores, factories, plazas, malls.
- Industrial locations near parks or commercial complexes.
- Busy downtown areas, on street corners or private parking lots
